Thanks Alan - letting you and Rochelle know that NRDC joined a proposal for Centreville, Illinois, focusing on flooding, sewage and potentially related drinking water issues and partnering with both local legal services attorneys representing residents and a team of subject matter experts from Williams College, Southern Illinois University at Edwardsville, and Harvard.

I appreciate your help in digging into these topics and look forward to future collaborations in the East St. Louis metro area.

I'm sure EPA received many strong proposals this round and look forward to seeing who the agency supports come fall!

Best,  
Meleah
